Proposal - “Game Changing Innovations” **NTT**

- NTT carries 1/3 of global Internet traffic, and commits to contribute to building global cyber resiliency. We need “game changing innovations” in our battle.

- “Global Information Sharing”.
 - ISAC-ISAC information sharing by the industries across borders.
 - Governments provide a common platform.

- “Ethical Hackers without Borders”.

- “G7 Hackathon” to link policies and front line wisdom.
